WASTE NOT WANT NOT
CREATING COMFORTABLE HOMES AT AFFORDABLE PRICES

VOLUNTEER CASE STUDY: MATT

Matt is a Year 10 student at Hardenhuish School and has been volunteering with us since the autumn. Matt comes in weekly for an hour during term time and has been busy helping the team with all manners of tasks.

"I've enjoyed being part of the team and getting involved properly instead of just watching. For example, I have helped put some furniture together and I've posted on Facebook and Instagram," explains Matt "I like seeing the different things that come in each week because every day is a bit different. Everyone has been friendly and helpful, and it's helped me feel more confident in a work environment. I have been made to feel part of a team, not just a work experience person."

"We are delighted to offer on-going volunteering placements for students and work in partnership with several schools in our community. These extended placements help our young people gain valuable life skills whilst building their confidence, communication skills, and broader understanding of the variety of roles within organisations" adds Charity Manager Annalisa "Matt is planning to join us for a full week placement at the beginning of July. This extended time with us will mean Matt can participate in more back-office functions and see what it takes to run a busy and successful charity such as Waste Not Want Not."

Thank you to Chippenham Town Council and the Wessex Water Foundation for supporting our work with volunteers.
